Commodore's Corner

Cheryl Perret

It is that time of the year again that the miserable hot days are approaching us quicker than we would like see happen. Along with these hot days is hurricane season starting next week. Please make sure you get your preparations done and not wait for the last minute. I was at Sam's Club yesterday and they have pallets all over the store of water, and extra supplies of batteries. Let's pray for a safe season.

One day I was contacted by a gentleman by the name of David Kidder. He was requesting info on our Wednesday night sailing. He asked if he could come out and take pictures with his camera and drone of our sailors and their boats. He was able to come out several nights and ended up on some of our boats. The pictures he took were unbelievable. I hope you all have seen it on our face book page and on our website, but if you haven't you can click on this site: <https://youtu.be/LHqVp8km5Qc>. I have asked David to be our guest at our steak night dinner on Friday May 27. Many thanks goes out to David for a great video of our club.

Our next big function will be our anniversary party on Saturday August 6. Our theme will be 50's, 60's and 70's so start thinking of what your costume will be. Who knows we just might have a prize for the best outfit. More info will be sent out soon.

Our Wednesday night sailing and burgers will be ending soon, so please join us on a Wednesday for either a burger, hot dog or some sausage. Many thanks to our chief Rene who has taken the lead on the cooking and to all who has filled in on the days he was not there. This has been very successful for the club.

Our club is in very much need of a manager. Some of the duties are to shop for food and all supplies for the club, maintain our inventory and place liquor orders, follow up on orders and be available to receive liquor. Handle all rentals from the start to the end, which includes contacting the people, meet with them and be available at the day of the rentals. Oversee the cleaning of the club, and making sure that the bar is staffed. Make sure that all receipts get turned in to book keeper. This is just a brief description of some of the duties. I ask that if any member is interested in this paid position to please contact me or we will go out to the public.

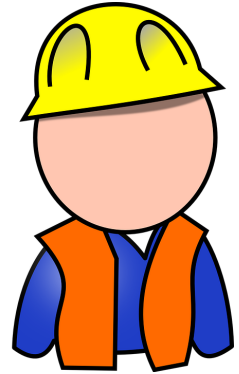

Cheryl

House Committee

Rene Marques

Work continues at the club. New bi-fold doors were installed between the two dining areas. I would like to extend a "Thank You" to Carol Perret, Herb Sales, Steve Case and Dave Lander for lending a helping hand in the installation of the doors. The crew was also instrumental in cleaning and ridding the outside patio of spiders. The patio was also sprayed to prevent the return of spiders in the area.

The delivery of alcohol to the club is becoming more frequent. We are hopeful that this continues so that we do not run out of your favorite beverage.

There may be a few make-up races scheduled for Wednesday evenings. Once the racing season is complete, we will once again offer hamburgers on Sunday evenings.

Our Annual TYC Rodeo was a great success! We are still involved in the process of putting together the final numbers of our proceeds from our awesome day. We will keep you informed. A great big "Thank You" goes out to the Blue Crab Restaurant for providing the venue for our day. We also extend a "Thank You" to the Wish to Fish Foundation for providing the personnel who took care of the fish weigh-in. We are grateful for the many TYC workers who donated their time to working the rodeo to ensure that our rodeo was a success.

There will be a TYC Rodeo meeting sometime in June to discuss our successes this year and to plan for our success next year.

See you at the club,
Rene' Marques

UNDER CONSTRUCTION!

Membership Committee

Mark Phillips

Membership committee, June 2022 Spyglass

WOW, blink and you miss it...the year is almost half over. The membership committee's efforts to streamline the new member application process and to develop a standardized procedure by which new applications are accepted has been reviewed by legal and approved by the board of directors. In addition to standardizing the application process, a check list is now in place to ensure our new members are appropriately welcomed into TYC. That said...our next challenge will be to grow membership. Membership is the lifeblood of our club, and we must continue to grow to offset what seems to be a gauntlet of financial challenges that include increases in water, electricity, rent, insurance, and maintenance of the TYC facilities just to name a few.

I must reiterate, ***all members of TYC are on the membership committee.*** All of us have family, friends, business acquaintances, clients, neighbors, and others who may be great additions to our club. The Membership Committee encourages all TYC members to be a recruiter and cheer leader for TYC. To further that effort, we're announcing a membership drive for the month of June; Any active member who sponsors a new member, that new member will receive a \$100 discount on their initiation fee.

We've established a goal for 2022 to welcome 15 new members to our club. We're on track to make that happen with 8 new memberships approved thus far.

We, the membership committee, (Keith Boos, Rene Marques, Frank Bush, Wayne Sewing, Carol Perret, and Mark Phillips) would like to thank all our membership for the renewed effort going forward to grow The Tammany Yacht Club.

Mark Phillips

It's June.....Hello Summer~! Try to stay cool and don't forget the sunscreen~!

A Big Thank You to all who helped with the May Day Extravaganza. It was a lot of fun for sure. If you have not seen the pictures from The Blessing of the Fleet, the Crawfish Races or The Kentucky Derby Hats please go to our facebook page. www.facebook.com/TammanyYachtClub I try to post pictures from our events as well as updates on upcoming activities for the club.

Another Huge Thank You goes out to ALL our Volunteers, Sponsors and Participants for the TYC Fishing Rodeo. Each of You helped make it a success~! We had such a wonderful time and Mr. Nick was so gracious for allowing us to use the Blue Crab for our venue. Each year it just keeps getting better. Again, check out the pictures on our TYC facebook page.

June brings us our Junior Summer Sail Camp. Such a Great Opportunity for our youth to learn about sailing. Part of the TYC Fishing Rodeo proceeds goes to benefit the Junior Program as well as The Wish to Fish Foundation. Both are great assets to our community.

We are still getting calls and doing some bookings for rentals. There was a bridal shower, a veteran's purple heart ceremony and Krewe of Bilge poker run that used TYC as a venue in May. We have a few bookings already for June including a couple doing their wedding reception with us on June 11th and Dionysus's Poker Run on June 18th. It is always nice seeing the club decorated for these special events.

Speaking of special events.....Save this Date. August 6th

Happy Birthday Tammany Yacht Club~! August 6th is our Charter Day. There will be Food, Drinks, and Plenty of Fun. We also have the band Just Us playing for our entertainment which means Dancing~! We are currently working out the details so we will keep you posted as the date gets closer.

Thank you and God Bless

Linda Phillips

Juniors

Sandy Stone

Work on the replacement Juniors dock has progressed beyond my expectations. As of this writing, the frame is complete and ready to go in the water, with only the deck planking to finish off. I am greatly indebted to Bobby Tassin, Wayne Sewing, and Wayne Jablonowski for their help with the construction. A particular "Thank You" goes out to Dr. Bobby for organizing the work parties.

Sail Camp begins in less than a week, and I am confident this year will be another success, and a credit to TYC.

Sandy

TAMMANY YACHT CLUB

2022 SUMMER CAMP

Session 1 - June 6th through June 17th

Session 2 - June 20th through July 1st

Session 3 - TBD

Learn to Sail for beginners and experienced campers, ages 7-16

Tammany Yacht Club is once again hosting its Summer Sailing Camp, with 3 sessions.

Each session is two weeks long, Monday through Friday from 9am - 4pm.

FOR ALL INTERESTED CAMPERS; MEMBERS AND NON-MEMBERS WELCOME

AGES 7-16

Child/Family Member of TYC Member: \$425 / 2-week session

Non-Member: \$475 / 2-week session

We try to make our program as enjoyable as possible for the juniors, and as convenient as possible for the parents. For more info, visit our website under Sailing/Sail Camp, email us, or phone Tammany Yacht Club at 985-649-5222.

Racing Committee/LPRC Chairman

Bobby Tassin

TYC Racing May 2022 – Dr Bobby Tassin

The Two Against the Lake was April 30th - the forecast “looked good” – but no, it was a very long, light air day. Every year it is a challenge and truly, the crews that hung in there, worked hard to finish. In Spinnaker: Zydeco, Born to Run and Nightshift were the top 3 finishers followed by Gotcha. In Non-Spinn: Windsome was first, followed by Zoya. Special awards: 1st TYC boat- Born to Run; 1st Male-Female – Winsome; 1st Masters (125+ years)– Born to Run (these are based on corrected times).

10 boats started and 6 grinded out a finish. Thanks to Wayne Sewing, Wayne Jablonowski and Kevin Blank for RC and regatta support.

Spring Series II is underway and so far, only one race cancelled due to weather, and we will add a make-up date on June 8th. thanks to all our club members who support the burger grilling and barkeeping and scoring and of course the Race Committee. And thank you to all skippers and crew who come out and compete!

No luck/no wind was to be had for the Opening/May Day Regatta attempted on May 7th but the Fleet Blessing and Fish Fry followed, and a good time was had by all. The June 4th Charter Day date will be rescheduled and we will attempt to do three races to catch up on the club series.

Wish to Fish was another excellent event in May. Wayne Sewing and I were fortunate to host fishing competitors Riley and his mom, Liz, aboard the Finaddict. He had a blast fishing and crawling all over the boat and doing some driving! At the end of the day his report was “I’m the Captain”! What a rewarding day it was. Thanks to all the Wish to Fish volunteers who created this event.

The recent focus has been on re-building the Juniors floating dock, and it is nearly done and will be ready for sail camp next week. Please thank the folks at Manning Lumber and Pontchartrain Hardware for giving us discounts on lumber and hardware!

Here is an overview of the TYC 2022 Racing schedule (subject to change)

3/16 through 6/8 - WedNite Spring Series – two sets of six races

TBD– Opening Regatta and May Day Regatta and Charter Day Regatta

9/7 through 10/12 – WedNite Fall Series – one set of six races: Skippers’ Meeting Wed 8/31

9/17 – Leen Polderman Regatta

10/1 – Single Handed Regatta – Skippers’ Meeting Friday 9/30 @ 20:00; Race 10/1 – 10:00 start. Steak Night is Friday and Chili Cookoff is Saturday post-race.

10/28 – 10/30 – LPRC

11/12 – Commodores’ Cup

Fair winds and following seas!

Editor's Comments

Pauline Marques

Greetings Fellow TYC Members,

I am hopeful that this message finds you in the best of health and prosperity.

Well, the month of May was certainly a busy month for the club.

As always, I extend a "Thank You" to our Committee Chairs for working to get their articles to Spyglass in a timely manner, and to our members who continue to send pictures to Spyglass from the many events they attend.

Please be sure to check out Bill Jobst's June article in "News You Can Use." Bill always offers great information regarding everyday occurrences involving life on the water. Thanks, Bill!

Remember, should you have any pictures of the many events held at our club, please email them to tycspyglass@yahoo.com. Your pictures are always welcomed and greatly appreciated.

As always, I look forward to seeing each of you at the club.

Respectfully submitted,

Pauline Marques

TYC Spyglass Editor/TYC Historian

NEWS YOU CAN USE

A Critical Nut

Most boaters would argue that all nuts are critical, but there is one particular nut that stands apart from the others, both in importance and simplicity. Our story begins on a beautiful sunny afternoon. Susan and I were taking possible newcomers on a boat tour of Eden Isles. We were near the end of a canal, about two miles from the Oak Harbor Basin, and we needed to turn around. Turning WINDSOME, our Tartan 37 CB, in a narrow canal is a multi-step process: turn sharply to starboard, shift into reverse, turn the wheel to port as the boat begins to move backward, apply power to kick the stern to port, then shift into forward gear to proceed back down the canal.

Well, half-way through our turn, we shifted into reverse and throttled to about 2000 rpm. That's when the gear shift and speed control failed. We were doing about 5 knots in reverse, and our options seemed limited. Turning a diesel off at 2000 rpm just doesn't work. Crashing into a bulkhead at 5 knots seemed certain to invite personal injury, extensive property damage, and lawsuits. Although I knew the location of the throttle and gear shift on the engine, no one else did, and getting into WINDSOME's engine compartment requires gymnastic ability. Shoreside spectators seemed to think that speeding in reverse was normal for us, so aside from a few cheerful waves, no shoreside help was forthcoming.

Our best choice seemed to be to continue motoring in reverse at 5 knots until we reached the marina basin where we could turn off the fuel valve (easily accessible by the chart table), let the engine die of fuel starvation, anchor, and hope for a tow. That's what we did, and it was successful! Our apology for any near-misses of bulkheads or boats.

So, what about that critical nut? The shifting and speed control cables are rigid stainless-steel wires inside an outer cover that is firmly attached to the boat. On WINDSOME the attachment point is about half way down the steering pedestal. Called a cap nut, it fastens the shifting and speed control cables to the boat, allowing the stainless-steel wires to slide inside the cables. The nut is visible on the outside of the steering pedestal. If it ever comes loose, you have a problem.

Since cables were assembled internal to the steering pedestal when the boat was built, I was expecting a major repair. Fortunately, a friend was able to use an 18-inch drill bit to coax the machine screw with cables back into the hole on the steering pedestal while I reattached our critical nut. Since nudging a small machine screw into a hole using a drill bit is mostly luck, we immediately purchased \$20 of lottery tickets knowing that we were certain to win. But we didn't win. Apparently, we had used our luck motoring two miles in reverse, anchoring and getting the critical nut back onto its home. Our \$20 did return \$7, enough to by thread sealer so this can't happen again.

W. Jobst CM-70

Sunday Fun Day

COOKIN' WITH TYC

Our June recipe is sent to us from Amythist Kearney.
Amythist has shared her Four Bean Gumbo Recipe.
Thanks, Amythist! Enjoy!

Four Bean Gumbo by Amythist Kearney

(Soak the beans in water at least a day in advance or until there is "bean scum". Drain and rinse well before use. Do not use salt or any seasoning at this point or the beans may stay hard.)

You can also prepare the roux part of this recipe the day before and refrigerate.

Ingredients:

½ pound each dry bean: kidney, black eye, and lentil
1 can Blue Runner Navy Beans (do not drain)
3 cans coconut milk (not the sweet kind)
Savoy's Gluten Free Instant Roux (there is no measurement, need to eyeball this)
1 can 5 oz. chicken in water (do not drain but smash out the chunks)
½ lb. andouille sausage (cut about 1/4" thick)
½ lb. pulled pork (no bbq sauce) or just add enough uncooked Boston Butt Pork Roast to your liking
1 lb. salt pork
3 low sodium chicken bouillon cubes (crush in advance if needed)
2 tsp tomato paste
1 lb. of Guidry's Fresh Cuts Creole Seasoning (or finely chopped: 1 bell pepper, 2 onions, 3 stalks celery, ¼ cup fresh parsley)
4 tbsp. minced garlic

¼ cup duck fat (substitute bacon fat or olive oil)
1 tbsp. coriander
1 tbsp. cumin
½ tsp crab boil (leave out if no heat is desired)

Tools:

Large skillet or chicken fryer skillet
Large slow cooker
Slow cooker liner (optional)
Several wood spoons for stirring
Bowl or plate (to set aside the sausage)
Large bowl (to mix the beans with the roux)

- Place andouille sausage in hot skillet and cook and flip until brown. Set aside.
- In same skillet, warm the duck fat.
- Slowly add the Guidry's Creole seasoning until lightly brown.
- Add the garlic and stir until brown.
- Slowly sprinkle in the roux stirring continuously. CAUTION: This roux will brown fast, so work fast. Use enough roux by sprinkling (to prevent clumps) until just before a cake batter consistency and until caramel brown. Reduce the heat.
- Add the sausage and stir.
- Add the coriander, cumin and bouillon cubes. Stir and mix well.
- Once the bouillon is well mixed in, add the tomato paste.

FROM THE BAR

From the Bar

Some lives are so complex that their story is better suited for a book rather than a Spyglass article. That is the case with our next "From the Bar" interview. Seminarian, Vietnam vet, senior marine electrical engineer, automobile enthusiast, cancer and Agent Orange survivor all describe our next interviewee, Allen Normand.

Al was raised in Beaumont, TX, where he describes his early life as "wild" with details best left to future bar stories. His antics led to enrollment in a private high school, quickly followed by a discipline-related transfer to Saint Edward's Seminary and boarding school. The seminarians realized that his talents would be better applied elsewhere and soon encouraged a third transfer to Beaumont's French High School where Al graduated. After high school, Al studied geology at Lamar University, again in Beaumont. All went well until his inability to distinguish pastel colors forced him to drop a course, leaving him one credit shy of meeting the criteria for a full-time student. The draft board was alert, and Al found himself in the Army, undergoing placement tests.

Al scored very well in all the Army's tests and was encouraged to attend the Army Security Agency's (now NSA's) school for special operations. He soon found himself, well behind enemy lines, installing and maintaining equipment for encrypted communications between firebases throughout Vietnam's Central Highlands. Fighting mosquitoes as well as the enemy, Al was repeatedly sprayed with Agent Orange as helicopters cleared areas surrounding firebases. At the time, Agent Orange provided a welcome relief from the omnipresent Vietnamese bugs that also inhabited our firebases. Agent Orange exposure eventually led to a full medical disability, three cancer operations, four heart attacks and five stents. Our service personnel often pay a high price for time served.

Al's love of mechanics began when his father gave him his first car at age 12, and told him that if he worked hard on repairs, he would be able to drive it at age 15. Al also joined MouseCar's Garage as a parts cleaner, but soon graduated to engine assembly. Recognizing Al's incredible mechanical talent, the owner split labor income. As the equivalent of a master mechanic at one of the most respected shops in Beaumont, Al's income surpassed that of most adults, all before he had his driver's license. As an addicted automobile enthusiast, Al eventually owned, among many others, 4 Porsches, a Shelby Cobra, 4 Corvettes, a 1954 MG TD classic and a modified Austin Healy Sprite hotrod. Rae Ann, his wife and partner for 36 years, can sometimes be seen with Al in their hotrod drawing attention in the TYC parking lot.

One Corvette, modified to over 640 horsepower, deserves special mention. Al passed a Louisiana radar speed trap at 207 mph. The speeding ticket is framed in his office. You will need to ask Al how he avoided jail time.

We are fortunate to have Al and Rae Ann as TYC members. You might thank Al for his service to our country... and for driving the speed limit in the vicinity of Tammany Yacht Club. Al's service dog, Sadie, would also enjoy a pat for her service.

W. Jobst CM-70
